### CRAWFORD PLLC

### **United States Patent Application**

# **DECLARATION UNDER 37 C.F.R. § 1.63**

As a below named inventor I hereby declare that: my residence, post office address and citizenship are as stated below next to my name; that

I verily believe I am the original, first and sole inventor (if only one name is listed below) or a joint inventor (if plural inventors are

	named below) of the subject matter which is claimed and for which a patent is sought on the invention entitled: Mask Identification								
Database Server.									
The specification of which									
<ul> <li>a.  is attached hereto</li> <li>b.  is entitled Mask Identification Database Server, having attorney docket number AMDA.499PA.</li> </ul>									
b. as application Database Server, having attorney docket number AMDA.499PA. c. was filed on as application serial no. and was amended on (if applicable) (in the case of a PCT-filed									
application) described and claimed			(if any), which I have reviewed and for which						
solicit a United States patent.									
•									
I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by									
any amendment referred to above.									
T - T - T - T - T - T - T - T - T - T -			the death of the state of the s						
I acknowledge the duty to disclose information which is material to the patentability of this application in accordance with Title 37, Code of									
Federal Regulations, § 1.56 (attached hereto).									
I hereby claim foreign priority bene	fits under Title 35. United State	es Code, § 119/365 of an	y foreign application(s) for patent or inventor's						
certificate listed below and have also identified below any foreign application for patent or inventor's certificate having a filing date before									
that of the application on the basis of which priority is claimed:									
a. In no such applications have been filed.									
b. such applications have been	filed as follows:

#### § 1.56 Duty to disclose information material to patentability.

- (a) A patent by its very nature is affected with a public interest. The public interest is best served, and the most effective patent examination occurs when, at the time an application is being examined, the Office is aware of and evaluates the teachings of all information material to patentability. Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in this section. The duty to disclose information exists with respect to each pending claim until the claim is canceled or withdrawn from consideration, or the application becomes abandoned. Information material to the patentability of a claim that is canceled or withdrawn from consideration need not be submitted if the information is not material to the patentability of any claim remaining under consideration in the application. There is no duty to submit information which is not material to the patentability of any existing claim. The duty to disclose all information known to be material to patentability of any claim issued in a patent was cited by the Office or submitted to the Office in the manner prescribed by \$\\$ 1.97(b)-(d) and 1.98. However, no patent will be granted on an application in connection with which fraud on the Office was practiced or attempted or the duty of disclosure was violated through bad faith or intentional misconduct. The Office encourages applicants to carefully examine:
  - (1) prior art cited in search reports of a foreign patent office in a counterpart application, and
- (2) the closest information over which individuals associated with the filing or prosecution of a patent application believe any pending claim patentably defines, to make sure that any material information contained therein is disclosed to the Office.
- (b) Under this section, information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and
- nade of record in the application, and
  - It establishes, by itself or in combination with other information, a prima facie case of unpatentability of a claim;
  - (i) It refutes, or is inconsistent with, a position the applicant takes in:
  - Opposing an argument of unpatentability relied on by the Office, or
  - (ii) Asserting an argument of patentability.

or

A prima facie case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability.

- (c) Individuals associated with the filing or prosecution of a patent application within the meaning of this section are:
  - (1) Each inventor named in the application:
  - (2) Each attorney or agent who prepares or prosecutes the application; and
- (3) Every other person who is substantively involved in the preparation or prosecution of the application and who is associated with the inventor, with the assignee or with anyone to whom there is an obligation to assign the application.
- (d) Individuals other than the attorney, agent or inventor may comply with this section by disclosing information to the attorney, agent, or inventor.
